Conclusion

And that in a nutshell is what it's like working with SweetGeorgia Yarns as a designer.

You've heard me mention, we have a couple different ways that we work with designers, from our collections that we release, from our individual monthly patterns that we release and those are all accessories only, to even just yarn support for our designers.

No matter how you wanna work with us, all you have to do is shoot me an email, at submissions@sweetgeorgiayarns.com and let me know if you wanna be on our designer call list or let me know how we can support you as a designer out there in the design room.

I look forward to working with you.
